3rd July – 6th August 2019

Closing date for application : 22 April 2019

TICA : Thailand International Cooperation Agency
is a national focal point for Thailand's international development cooperation. TICA was established in 2004 to realize Thailand's aspiration to be a contributor of development cooperation. Believing that global challenges are best addressed by international cooperation and global partnership, today we continue to strengthen our contribution to achieve global development agenda through various capacity-building and human resources development programmes. In response to the recent changes in the global landscape of development cooperation, especially through the concept of South-South and Triangular Cooperation, TICA continues to realign our focuses in order to deliver Thailand's commitment to be a relevant partner in global agendas including the 2030 Agenda for Sustainable Development.

AITC : Annual International Training Course

was initiated in 1991 as a framework in providing short-term training for developing partners. Today, the AITC remains one of TICA's flagship programmes. It offers not only a training experience, but also a platform in exchanging ideas and establishing professional network among participants from across the developing world. Aiming at sharing Thailand's best practices and experience to the world, the AITC training courses focus on development topics of our expertise currently categorized under five themes namely, "Sufficiency Economy Philosophy" or SEP, Food Security, Public Health, Climate Change, and Other topics related to Sustainable Development Goals (SDGs).

Faculty of Nursing, Chiang Mai University

Established in 1972, the Faculty of Nursing at Chiang Mai University is one of the oldest and most reputable nursing schools in Thailand. The Faculty currently offers Bachelor, Master, Post-Master, PhD. and Postdoctoral programmes. It also hosts the Nursing Research Center and Center for Excellence in Nursing Research. The Faculty's main facilities are located at Chiang Mai University Health Sciences Campus with a training facility on health-spa and Thai traditional therapy located in Mae Rim.

AITC Theme : Public Health

This training course falls under the AITC theme – "Public Health". We believe that health is a very important component for economic and social development, national security, regional and global stability. In the post 2015 context, health has been increasingly recognized as a key contributor in development as good health is one of the fundamental building blocks of society and sustainable development. From improved quality to inclusive healthcare system, Thailand has been sharing our experience and lesson-learned with developing partners on the road to achieve health-related Sustainable Development Goals (SDGs).

Course Objectives

This training course aims at sharing Thailand's experiences in using empowerment to promote healthy pregnancy and children in community health promotion. At the end of this course, participants are expected to;

- Understand the principles and strategies of community health development;
- Explain concepts theories and evidence-based related to holistic care of women during the preconception and antepartum periods.
- Analyze problems and health care management of pregnant women and children during their first five years of life.
- Gain knowledge and experience in related areas of using practice by site visits to various health care services and child development centers..

Course Methodology

Training methodologies to be used during this training course include;

- Lecture;
- Group Discussion;
- Field Studies.

Assignment and Evaluation

- In-class participation and discussion.
- Advance assignment – Submission and 10-minutes presentation of "Country Report" which contains information on current situation of health care system, health policy and strategies in their own country and setting
- Course assignment
- Attendance - Participants are required to attend all activities organized during the course. TICA reserves the rights to revoke its fellowship offered or take appropriate action in case a participant is in attendance of less than 90 percent of the training hours.

Course Outline

This training course focuses on role and functions of community health volunteer in community health promotion. Topics of training are such as;

- Introduction to Health care system;
- Characteristics of an effective health care delivery system: availability, acceptability, affordability, and appropriateness;
- Community health development: concepts, principles, and strategies;
- Holistic care for women during the preconception and antepartum period including fetuses by integrating evidence-based knowledge of related disciplines.
- Holistic care for women with high risk medical conditions during the antepartum, intrapartum and postpartum periods.
- Holistic care for women with obstetric emergencies including fetuses and newborns by integrating evidence-based knowledge of related disciplines: Cord prolapse, shoulder dystocia, maternal hemorrhage.

Participant Criteria

Candidates must possess qualifications as specified in "Guideline for Thailand's Annual International Training Course Programme" No. 2 "Qualifications" as well as following qualifications;

- Currently working in the healthcare field for least two years professional experience in public health or relevant areas.
- Be in good health both physically and mentally
- Computer literate.
- Under 45 years of age.

Application

- Candidates must be nominated/ endorsed by their respective governments of the eligible countries/territories by the closing date for application.
- Complete nomination documents must be submitted to TICA through the Royal Thai Embassy/ Permanent Mission of Thailand to the United Nations/Royal Thai Consulate-General accredited to eligible countries/ territories.

(See "List of Eligible Countries" for more information)
