8th International Conference on Advances in Technology and Computing (ICATC) 2023

Leveraging Computing and Technology for Sustainable Economic Recovery

The Faculty of Computing and Technology, University of Kelaniya, Sri Lanka, is organizing the 8th International Conference in Technology and Computing (ICATC) 2023, themed "**Leveraging Computing and Technology for Sustainable Economic Recovery**" to be held on **15th December 2023**.

ICATC 2023 creates a vibrant platform for exchanging innovative ideas and insights in various computing and technology domains, specifically focusing on their potential to drive sustainable economic recovery.

This Conference is aimed at providing a platform for researchers, practitioners, and industry experts to present and discuss the latest advancements under the main tracks, including, but not limited to, the following:

- Computing Technology for sustainable economic recovery.
- Smart Teaching and Learning for Sustainable Economic Recovery.
- Science, Engineering and Technology for sustainable economic recovery.

All researchers, academics, professionals, and students are invited to publish their original research work under the Conference theme.

For further information and manuscript submission guidelines, visit the ICATC 2023 website: https://conf.kln.ac.lk/icatc/.

For further inquiries: *icatc@kln.ac.lk*.
