

Healthy Lifestyle Centers (HLCs) established

There are 707 Healthy Lifestyle Centers (hospital & field) functioning island-wide. These centers provide screening for selected Non Communicable Diseases. Fasting Blood Sugar testing, cholesterol testing, blood pressure testing, height, weight and BMI testing, and life style guidance is provided in these clinics. If a person is found to have hypertension, diabetes or cardio vascular risk factors he/ she will be referred to a hospital for further care. The list of institutions where HLCs have been established are listed below.
